

# EASYOIL The Original

## Oil dispensing nozzle

EASYOIL is a new dispensing nozzle specifically designed for the industry.

- Its main advantages are:
- Ergonomics, featuring an anatomical handgrip and a trigger that requires minimal pressure.
  - Safety, thanks to lever protection that prevents accidentally pressing the trigger.
  - Easily Integratable.

The EASYOIL handgrip, combined with a K400 meter becomes an extremely mobile tool for measuring the dispensing of oil.

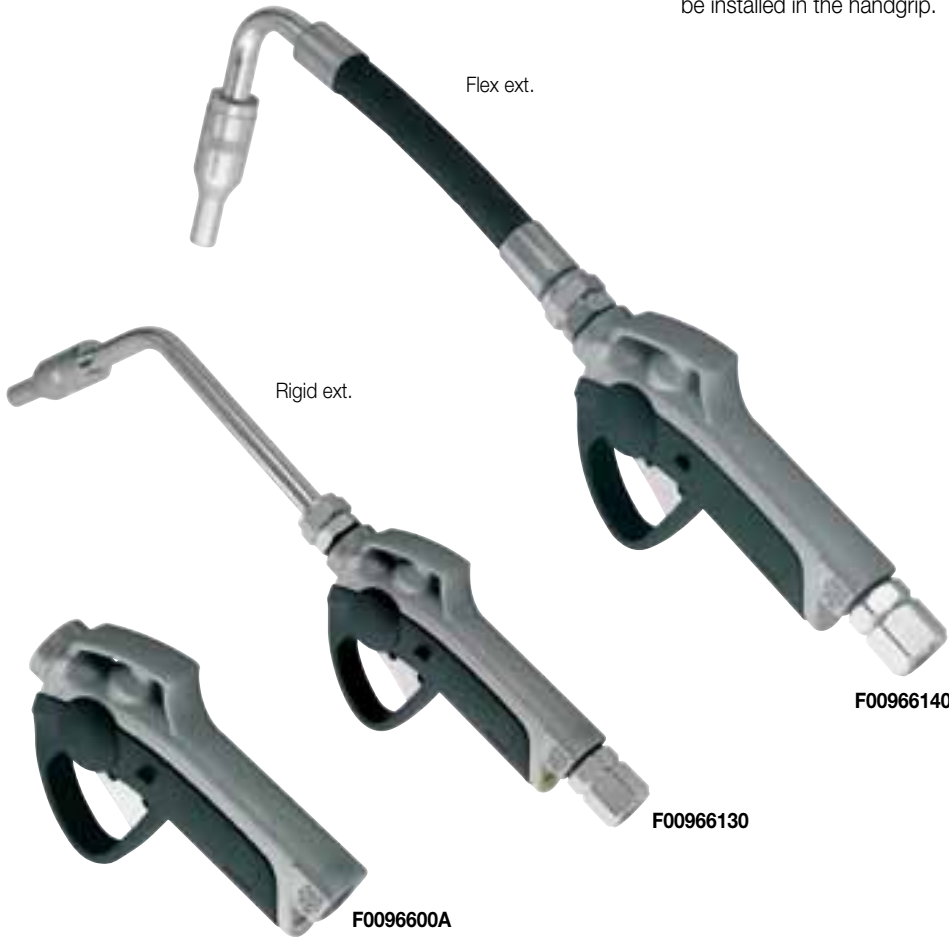

- Versatility. A wide array of accessories allows configuring the dispensing nozzle for the most varied requirements.

## Construction characteristics:

- The aluminum body is resistant to high pressure;
- The plastic, anti-shock handgrip is available in several colors;
- A balanced valve reduces pressure on the trigger;
- The trigger is protected to prevent accidental spills;
- Trigger lock button for dispensing;
- Optional suction filter available;
- The K400 and K40 meter can be installed in the handgrip.

Trigger lock

## Color Code system

- Handgrip**

## Accessories:

### Rigid Spout

Mod. BSP B/P with automatic no-drip valve  
**F0067000A**

Mod. BSP LF with manual no-drip valve  
**000938000**

Mod. BSP HF with manual no-drip valve  
**000934000**

### Flexible Spout

Mod. BSP B/P with automatic no-drip valve  
**F0067100A**

Mod. BSP LF with manual no-drip valve  
**000939000**

Mod. BSP HF with manual no-drip valve  
**000935000**

### Swivel 12. 12 GAS

Code **F0845600A**

Available with NPT thread
